Hi Paul,

Due to conflicting schedules during the next couple of weeks, the earliest availability we have is on Monday, the 23rd from 3-4pm (EST). Please let me know if that time works for you and [REDACTED]

I will also share the information that you provided regarding the affected areas with the recipients. Thank you.

Brittany, to my knowledge no such maps exist. I think it would be more productive for ADC/HDOA to assume all occupied areas near all sprayed fields are affected.

 Hi Paul,

Thank you for the update. I will check in on the availability from our side and will be back in touch. As an aside, I was going to follow up with you again regarding the maps. I shared them with the recipients, but they wanted me to double check with you to see if you may have any maps showing the location of the affected neighborhoods in relation to the seed production companies that are alleging the discriminatory actions by the agencies.

Does such a map exist?

Thank you
